The Arab American University (AAUP) adopts an eminent, diverse educational system in its faculties, specializations, and students. The AAUP academic staff has extensive international experience, and the University is keen to provide the best services to its students to hone their skills and qualify them to face the challenges of the labor market in the twenty-first century.

Our Vision:

To situate the Arab American University as an academic institution known for graduating generations of students who exceed local and global expectations with the highest principles of ethics, and that their research and creativity have an effective impact on society.

Our Mission:

- Providing distinguished academic programs at international levels, and attracting qualified faculty members to teach and conduct research.
- Creating an open environment for cultural and knowledge exchange that encourages scientific research, creativity, innovation and leadership.
- Building cooperative relationships and partnerships with high-ranking, reputable international universities.
- The University instills the values and principles of ethics among its students.
- The University encourages the desire of its employees, faculty members, and students to serve the local community.

The Arab American University has two campuses: the main campus is in Jenin and the other is in Ramallah. Both campuses include modern buildings and advanced facilities, containing scientific laboratories equipped with the latest equipment and technologies. Wireless Internet service is available in all facilities at AAUP. The University also includes a modern library with a wide-ranging information network of electronic books and encyclopedias.

Since its establishment, AAUP has been keen to apply international quality standards, and thus obtained the quality certificate (ISO9001: 2015). It also obtained membership in the Union of Arab Universities and the Union of Islamic Universities, in addition to membership in the League of Arab Private Institutions. The University issues a semi-annual peer-reviewed scientific journal with an impact factor that is the highest among scientific journals, according to the Arab Impact Factor report for the classification of the most important journals published in Arabic.

The University provides financial aid to students according to the principle of merits and need. It also organizes sports and cultural meetings on a regular basis. AAUP gives its students access to the latest technology in the field of education, provides a quality environment in education and housing, and gives students the opportunity to interact and deal with teachers of different nationalities inside the country through its teaching staff, and abroad through joint programs, practical training and summer schools. This opens up new horizons for students to learn about different cultures and experiences. The University provides housing for female students on its campus in Jenin, and there are a number of libraries and restaurants in its area, in addition to a commercial and services complex.

Facts and Figures:

Jenin campus area: 305,121 m²
Ramallah campus area: 22,408 m²

Total graduates: 26,889

Undergraduate programs: 73
Intermediate Diploma
Programs: 5
Master's programs: 91
Doctoral programs: 29
Specialization and higher
diploma: 5

Members of the teaching staff: 1031

Members of the administrative staff: 613

Internship supervisors: 730

Scholarships and financial aid:
\$13,541,281 for the academic year
2022-2023.

Voluntary work hours: 100

Academic Quality:

Arab American University is committed to the highest standards and best international practices in the field of academic quality. Since its launch, the Department of Quality was established, to be named later at the beginning of 2023 the "Quality Development Department." The Quality Development Department is affiliated with the Office of the Vice President for Planning, Development and Quality, and its work focuses on developing quality in the academic and administrative fields.

The Arab American University was distinguished by being the first university in Palestine to obtain the ISO 9001:2015 certificate in the field of administrative quality, and it is working to obtain other certificates in the field of information security (ISO 27001).

- All programs offered at the Arab American University are accredited and licensed by the Palestinian Ministry of Higher Education and Scientific Research and the Palestinian National Commission for Accreditation and Quality.

- The University seeks to obtain international accreditations for a number of programs, and currently it has obtained the following accreditations:
 1. ABET accreditation for the Computer Systems Engineering program
 2. ADEE accreditation for the Faculty of Dentistry
 3. Accreditation by the American Accreditation Commission for the Faculties of Nursing (NLN CENA) for the Bachelor of Nursing program
 4. Membership in (AACSB) in preparation for obtaining special accreditation for business faculties in international universities
 5. The University is currently seeking to obtain international accreditation for the Faculty of Medicine and the Faculty of Pharmacy.

- The Arab American University is linked to a number of international cooperation agreements, which include a group of academic student exchange programs. These opportunities can be found through the Projects and Grants Department.

- The Arab American University has taken great steps towards developing its facilities and laboratories in a way that enables it and its students to be present in academic forums at all levels: local, Arab, and international, in accordance with the basic vision that the University has set since its inception. It has gained membership in:

- o Association of Arab Universities

- o Federation of the Universities of the Islamic World

- o Membership in the Association of Euro-Mediterranean Universities (UNIMED)

- The Arab American University participates in all international university classifications, most notably:

- o Times Higher Education

- o QS Ranking

- o GreenMetric

AAUP achieves advanced positions among Palestinian universities, and always seeks to raise its ranking to compete locally, regionally, and internationally.

Deanship of Student Affairs:

The Deanship of Student Affairs is the vital lifeline of University life, as it excels in serving students and enriching their university life with extracurricular social, cultural, sports or political activities. This is by building a conscious, creative generation capable of advancing society by providing opportunities and providing a supportive university environment that enriches their educational journey and contributes to refining their personalities and demonstrating their creative vigor.

Our Goals:

- 1- Deepening belonging to the University in the hearts of students.
- 2- Building a complete and balanced personality among students, developing their capabilities with skills, and providing them with practical experiences.
- 3- Creating a university environment that encourages creativity and develops the spirit of teamwork by providing cultural, sports and social care.

4- Encouraging students to participate in student activities and various university events and working to hone and develop their talents.

5- Providing advice and guidance to all students, caring for outstanding and distinguished ones and highlighting their talents.

6- Cooperating with the University faculties and working to discover students' talents and employ them to serve the students and society.

- Student Service Section
- Alumni Affairs Section

University Centers

▪ **Hassib Sabbagh IT Center of Excellence:**

The Center seeks to build distinguished Palestinian capacity in the information technology industry, and the Center's mission focuses on creating an infrastructure that encourages scientific research and creativity by nurturing creative ideas submitted by society in general and the University community in particular.

▪ **Language Center:**

Through this center, AAUP seeks to provide the best level of teaching English and many other languages. The center is interested in maintaining a percentage of teachers coming from countries where English is the official language, in addition to Palestinian teachers specialized in methods of teaching English. The university seeks through this Elite group of lecturers to provide a distinguished level of English and other languages through modern educational methods and teaching technologies.

▪ **Conflict Studies Research Center (CSRC):**

The center is located on the campus of the Arab American University in Ramallah. It is the first center of its kind in Palestine and in the Arab region. It focuses on strengthening the scientific research system, both academic and political, in the areas of conflicts with their political implications and conflicts with their social and societal paths. The center is politically neutral, as it is open to all political views and spectrums, and adopts the values of the Arab American University in academic excellence, community communication, and humanitarian scientific production.

▪ **The Library:**

AAUP has a central computerized library that serves all students and faculty members. It contains the latest books and references in various specializations, and the most important electronic databases such as EBSCO, SPRINGER, HINARY, Al-Manhal, and Mandumah, in addition to computers to serve student and faculty researchers.

▪ **Continuing Education Center:**

AAUP devotes all its capabilities to helping the Palestinian community by providing consultations, workshops and training courses, to improve the skills of students and trainees, accordance to their needs and the requirements of their institutions.

▪ **Dental Center:**

It is the first advanced educational service center for modern dentistry in Palestine. This Center provides therapeutic services to the local community at the hands of an elite group of specialists and a distinguished administrative staff. This Center is distinguished by international technologies in the field of dental treatment and patient follow-up, as it contains the latest dental and laboratory therapeutic techniques.

▪ **Medical Center on the University Campus in Ramallah:**

The Center adopts the latest equipment and technologies in the fields of dentistry, ophthalmology, and medical laboratories for the purposes of scientific research, higher education, and training qualified personnel. It also provides treatment services and medical examinations at the highest levels for all sectors of society through:

1. Specialized dental clinics.
2. Specialized ophthalmology and surgery clinics.
3. Molecular Genetics Laboratory.
4. Oral and maxillofacial histopathology laboratory.
5. Medical analysis laboratory.

The Center adopts the latest equipment and technologies in the fields of dentistry and medical laboratories for the purposes of scientific research, higher education and training qualified personnel. It also provides treatment services and medical examinations at the highest levels for all sectors of society.

▪ **The University Clinic:**

AAUP provides mandatory health insurance for regular students, in addition to a medical clinic that provides basic services for students and workers. An official ambulance is permanently located inside the main University campus for emergency cases. Students and the local community can benefit from the medical centers and laboratories located on the University campus to obtain available treatment and medical examinations.

▪ **Sports Facilities:**

AAUP provides sports facilities with the finest and latest international approved specifications, including a multi-purpose indoor gym, the University International Football Stadium, outdoor stadiums, a semi-Olympic swimming pool, and a fitness club.

▪ **Simulation Center:**

It is the first center of its kind in Palestine, and it has been fully equipped to become a reference for all those interested in the development of nursing education, with the help of high-accuracy simulation tools, and the development of research related to nursing education. The Center relies on the principle of excellence in practical applications for all aspects of nursing education through innovative education and using high-quality state-of-the-art technology such as high-precision simulation of the human patient.

▪ **National Digital Transformation Center (NDTC):**

The Arab American University has established the National Digital Transformation Center (NDTC) in 2023 out of its belief in the importance of digital transformation and the role of educational institutions in supporting national efforts in this context and to contribute to achieving the goals of the Palestine Digital Agenda.

The vision of the Center, which is the first of its kind in Palestine, is to place Palestine in a regional leadership position in the field of digital transformation, and to contribute to creating a prosperous digital economy. The Center aims to accelerate the digital transformation process across various sectors, and to promote a comprehensive and sustainable digital environment that drives economic growth, social progress and technological innovation in institutions and companies.

The Center provides several services, including: providing specialized training courses, evaluating the data structure and information technology of organizations, providing consulting and information security services, conducting specialized research, supporting incubators and emerging digital companies, in addition to cooperating and building partnerships with decision makers to support digital innovation and entrepreneurship.

- **Heart Center:**

It is an officially licensed center from the American Heart Association. The Center published the basic steps for cardiopulmonary resuscitation and cardiovascular care in emergency situations, which established the basics for first aid in the local community that contributes to saving lives and the basic protocols for cardiopulmonary resuscitation operations, in addition to the products used for these operations worldwide. This is in addition to conducting annual courses to explain the basics of the self-first aid process and the materials used to teach cardiopulmonary resuscitation and cardiovascular care to millions of local community members and health service providers.

- **AAUP Center for Research and Polling:**

The Arab American University Center for Research and Polling aims to stimulate quantitative research at the Arab American University in particular and in Palestinian society in general.

- **Center of Excellence for Climate Change and Environmental Technologies:**

The Center of Excellence for Climate Change and Environmental Technologies is an influential center in terms of climate change issues and challenges, in addition to providing solutions and strategic consultations for decision and policy makers in Palestine regarding climate change and its impacts. It is the base for many scientific analyzes and data integration. Thus, it provides the opportunity for creativity, innovation and communication, and seeks to build partnerships in order to address climate challenges with the latest available environmental technologies.

University Medical Rehabilitation Complex - Jenin Campus

The University Medical Rehabilitation Complex is an integrated center for medical and rehabilitation services, as it provides comprehensive health care to patients from inside and outside the University. As such, it provides physical therapy, occupational therapy, hearing and speech therapy, in addition to prosthetics through the largest prosthetic factory in the Middle East. It is equipped with the latest technologies and technological devices that conform to the international specifications according to the International Society for Prosthetics and Orthotists (ISPO).

The Complex allows University students to apply theoretical knowledge by training them on practical cases, and enhances the skills necessary to practice their supportive medical professions efficiently, which contributes to raising the level of health and rehabilitation care in the region and improving the quality of patients' life.

The University Medical Rehabilitation Complex contains the following centers:

1. Physiotherapy Center:

- Pediatric Rehabilitation Section.
- Adult Physical Rehabilitation Section.
- Hydrotherapy Section.

2. Occupational Therapy Center:

1. Pediatric Rehabilitation Section.
2. Adult Physical Rehabilitation Section.
3. Rehabilitation of Hand and Upper Limb Injuries Section.
4. Psychological Rehabilitation Section.
5. Assistive Technology Devices Section.
6. Splint Section.
7. Daily Life Skills Rehabilitation Section.

3. Rehabilitation Center for Children with Special Needs:

This is a specialized center that provides rehabilitation services for children with disabilities, and children who are at risk of disability as a result of genetic and non-genetic factors, or from certain complications during pregnancy and childbirth, through a specialized team. The Center provides the best interventions based on scientific foundations, and provides consultation to families.

4. Speech, Language and Hearing Disorders Center:

1. Examination and diagnosis of hearing problems Section.
2. Examination and diagnosis of speech, language and swallowing problems Center.

5. Specialized Outpatient Clinics:

Specialized clinics have doctors and specialists in the following fields:

1. Hand orthopedic specialist
2. Orthopedic specialist
3. Pediatric orthopedic specialist
4. Neurosurgeon
5. Neurospine specialist
6. Rehabilitation specialist
7. Pediatrician
8. Psychologist
9. Ear, nose and throat specialist

6. Assistive Centers:

1. Medical Analysis Section.
2. Medical Imaging and Radiology Section.

University Factory for Prosthetics and Orthotics :

It is the first and most modern factory in the Middle East, as it is equipped with the latest machines, equipment and technologies that meet the needs of work. The Factory includes a medical staff and experts, to provide the best medical services in terms of diagnosing the patient and describing the appropriate device or limb, and completely manufacturing it in a way that suits the injury and is able to treat it appropriately to create hope and renew life for patients.

The Factory contributes to teaching and training prosthetics and Orthotics students with the best possibilities to graduate students with the classification of first specialist, accredited by the Ministry of Higher Education, the Ministry of Health, and the World Prosthetics Organization. Thus, the students become able to understand and confront the challenges and changing needs in the Palestinian and Western societies.

Factory Sections:

1. Diagnosis and Examination Section.
2. Shaping and Casting Section.
3. Plastic Extrusion Section.
4. Casting Section.
5. Calibration and Installation Section.
6. Training and Qualification Section.

The specializations offered by the Arab American University for bachelor's degrees, education diploma, and intermediate diploma

Specializations offered at the university campus - Ramallah:

Faculty of Medicine:

- Medicine.

Faculty of Dentistry:

- Doctor of Dental Surgery.
- Dental Technology.

Faculty of Nursing:

- Nursing.

Faculty of Pharmacy:

- Pharmacy.

Faculty of Modern Sciences:

- Interior Architecture
- Industrial Product Design
- Optometry
- Virtual Reality Arts
- Technology Management and Pioneering
- Culture, Technology and Society
- Sustainable Development and Technology

Faculty of Business

- Human Resources Management
- Land and Property Management
- Accounting

Faculty of Artificial Intelligence and Data Science:

- Statistics and Data Science
- Finance Data Science
- Data science and Machine Learning
- Financial Engineering
- Virtual Reality Science
- Artificial Intelligence and Robotics
- Artificial Intelligence and Financial Technology
- Cyber Security
- Artificial Intelligence and Medical Sciences

Faculty of Modern Media:

- Digital Media
- Public Relations
- Digital Media and Communication

Faculty of Digital Sciences:

- Digital Marketing
- Digital Health
- Political Science and Digital Diplomacy
- Digital Economics
- Digital Management of Business

Faculty of Engineering:

- Computer Systems Engineering
- Cybersecurity Engineering Department

Faculty of Arts and Education:

- English Language
- Educational Administration
- Languages

Faculty of Allied Medical Sciences:

- Medical Laboratory Sciences
- Occupational Therapy
- Physio-therapy
- Speech, Language and Hearing Disorders

Faculty of Information Technology:

- Computer Science / single or minor in Computer Information Technology
- Multimedia Technology

Faculty of Law:

- Law / focusing on law in English

Faculty of Sciences:

- Forensic Biology

Intermediate Diploma:

- Dental Technology
- Dental Assistant
- Cosmetics and Skincare
- Property Valuation
- Mobile Applications Development

Specializations offered at the university campus - Jenin:

Faculty of Medicine:

- Medicine

Faculty of Dentistry:

- Doctor of Dental Surgery
- Dental Technology

Faculty of Nursing:

- Nursing

Faculty of Pharmacy

- Pharmacy

Faculty of Modern Sciences:

- Sustainable Development and Technology

Faculty of Digital Sciences:

- Digital Marketing
- Digital Health
- Digital Economics

Faculty of Modern Media:

- Public Relations

Faculty of Artificial Intelligence and Data Science:

- Statistics and Data Science
- Specialization in data science and finance
- Artificial Intelligence and Robotics
- Cyber Security

Faculty of Information Technology:

- Computer science major / minor in Computer Information Technology
- Computer networks / minor in Information Security
- Multimedia Technology
- Geographic Information Systems (GIS)

Faculty of Business:

- Economics and Islamic Banking
- Accounting
- Business Administration
- Human Resources Management
- Operations Management/ Specialization in Management Information Systems (MIS)
- Land and Property Management
- Marketing
- Financial and Banking Sciences
- Operations Management/specialization in Hospital and Health Services Management

Faculty of Arts and Education:

- Teaching English
- English Language
- Languages
- Specialization in Arabic language and media
- Elementary Education / Basic Level
- Educational Administration
- Education Diploma: The program tracks are science education, mathematics education, Arabic language education, and English language education.

Faculty of Sports Sciences:

- Sports Sciences

Faculty of Law:

- Law
- Fiqh and Law

Faculty of Engineering:

- Electrical Engineering and Renewable Energy
- Telecommunications Engineering
- Computer Systems Engineering
- Architecture Engineering
- Civil Engineering
- Biomedical Engineering
- Mechatronics Engineering.
- Cybersecurity Engineering Department

Faculty of Allied Medical Sciences:

- Medical Laboratory Sciences
- Specialization in medical imaging.
- Physio-therapy
- Occupational Therapy
- Prosthetics and Orthotics
- Speech, language and hearing disorders
- Environmental sciences and Technology
- Environmental Management and Recycling.

Faculty of Science:

- Forensic Biology
- Major in Mathematics and Statistics/ single or minor in Computer Science or minor in Education
- Biology and Biotechnology / single or minor in Education
- Physics / single or minor in Computer Science or Minor in Education
- Applied Chemistry

Intermediate Diploma:

- Dental Technology
- Property Valuation
- Cosmetics and Skincare
- Dental Assistant
- Mobile Applications Development

Faculty of Graduate Studies:

- 1- Department of Administrative and Financial Sciences
- 2- Department of Health Sciences
- 3- Department of Legal Sciences
- 4- Department of Social Sciences
- 5- Department of Media and Communication
- 6- Department of Educational Sciences
- 7- Department of, Natural, Engineering and Technology Sciences
- 8- Department of Dental Sciences
